

W Simply Forms

A FORMS AUTO-POPULATION SERVICE
FOR THE WORKERS' COMPENSATION INDUSTRY

The industry's most complete claim form database
updated and ready to integrate.

From first report of injury to claim closure forms, our database of over 1,100 continuously updated documents are just a few clicks away. Our API interfaces with existing desktop and browser-based claims management systems, so insurance companies, third party administrators and software developers can save significant administration costs and time spent monitoring and updating forms.

Each form is generated with specific claim information and is printable and savable, helping adjusters address claims more effectively, with fewer errors.

Adjuster and claims manager productivity

- **Save time** - no searching for forms or retyping existing information
- **Reduce errors** - forms complete right, the first time

Technical Benefits

- **No more** monitoring and updating forms
- **Reallocate resources** to more pressing projects
- Add **custom forms** and letters

Let's simplify your system
